DRIVE MODE SELECTOR

| SUZUKI ALLGRIP SELECT 4X4 -

Challenging conditions or new territories, conquer them all. Old conventions, defy them all. Go further and take on the toughest of roads. This is the Grand Vitara with Suzuki ALLGRIP Select 4x4, the legendary Four-wheel Drive Technology from Maruti Suzuki. The electronically controlled Four-wheel Drive System with selectable driving modes uses a simple push-and-turn dial so you can control the driving behaviour depending on the road surfaces or conditions. This superior capability of the hi-tech SUV gives the driver the confidence to take on any challenging terrain while ensuring high fuel-efficiency and peace of mind. The ALLGRIP Select 4x4 lets you choose from 4 driving modes - Auto, Sport, Snow and Lock.

- In the **AUTO mode**, the vehicle prioritises fuel economy and switches between Two-wheel Drive and Four-wheel Drive depending on the road surface and driving conditions.
- In the **SPORT mode**, the vehicle is optimised for sporty driving, such as on winding roads.
- In the **SNOW mode**, stability is maximised which makes driving through snow, unpaved or other slippery surfaces easier.
- In the **LOCK mode**, the system sends power to the wheels that have traction and applies brakes to the wheel that is spinning. This gives the vehicle the confidence to move out of challenging terrains like mud or sand by maximising traction and improving stability.
